SMD adhesive 3609, 10 ccm

• high wet strength
• long stencil life
• for bonding surface-mounted components to the printed circuit board prior to wave soldering
• especially for applications where medium to high delivery speeds, high point profile, high wet strength and good electrical properties are required
• no mixing necessary
• can be used in lead-free wave soldering with water-based and alcohol-based fluxes

Item no.	**WL13623**
Model	3609-10ML
Manufacturer	LOCTITE
GPSR manufacturer data	LOCTITE Erdbergstraße 29 AT-1030 Wien www.loctite-superkleber.at
Sales unit	1 piece
