

## D 08 Lid for ultrasonic bath

A suitable stainless steel lid for an ultrasonic bath protects the bath liquid from external contamination and prevents odour nuisance caused by the added cleaning or disinfecting preparations. In addition, the noise emission during operation of the ultrasonic cleaner, which may be perceived as disturbing, is reduced. The lids are designed in such a way that any condensation water that arises is fed back into the tank.

□ Stainless steel

□ Suitable for RK 31/H
