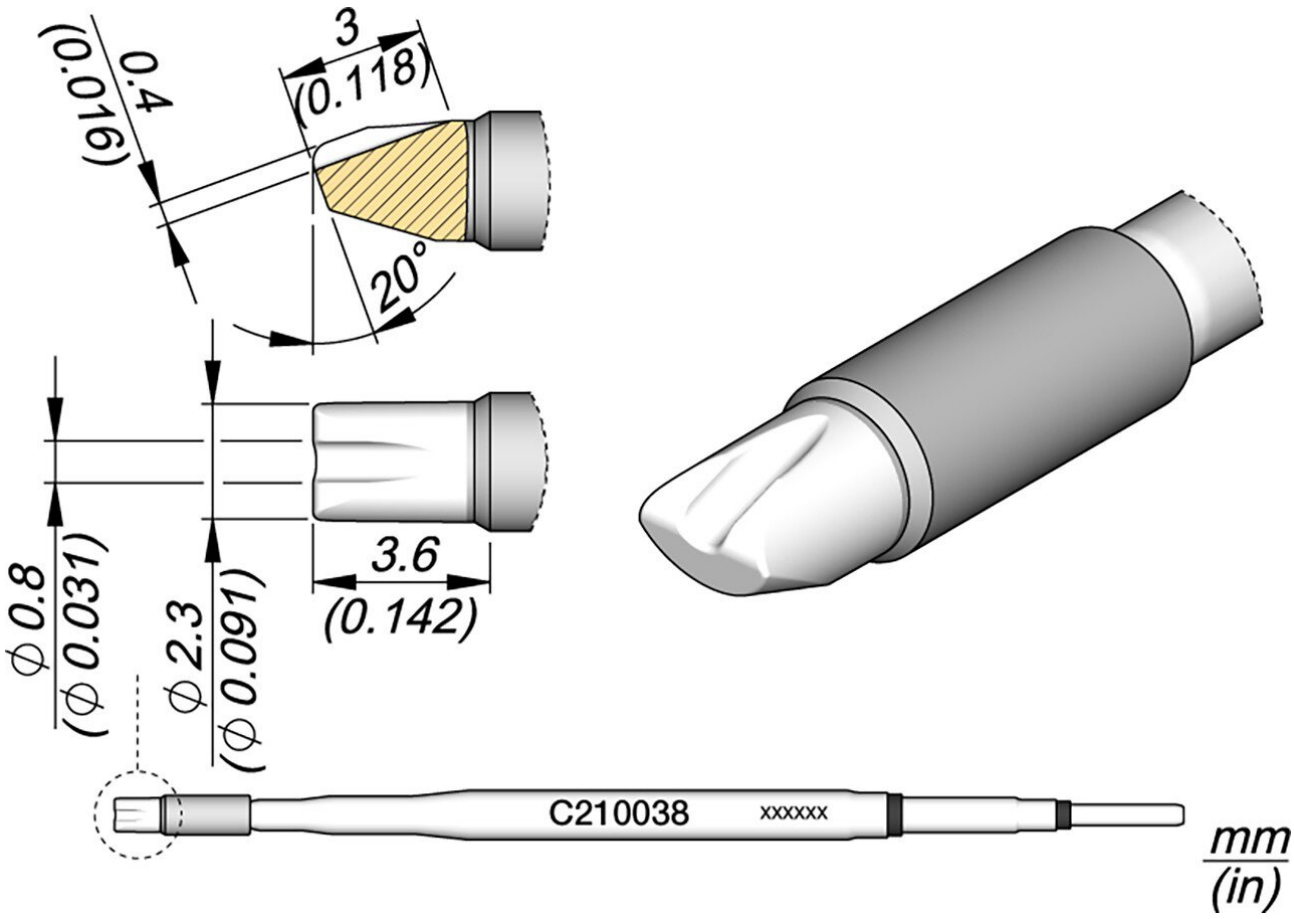
Soldering tip barrell, diameter 0,8 mm, C210038



This is specially designed for soldering cables and connections up to 0.8 mm in diameter.

Due to the size, these cartridges are perfect to under a microscope, or with conventional components.

They are appropriate for connectors soldering purposes and they are perfect for both THT and SMT cable soldering or for applications with medium power requirements such as ground plane soldering.

They work with T210 Precision Handle.

JBC Long Life Tips offer instant heat up, excellent heat transfer and great durability.

They last 5 times longer than other brands thanks to the JBC Most Efficient Soldering System and the Sleep & Hibernation features.
