Filter for suction unit FAE1

• Extraction unit FAE1 has a compact three-layer filter.
• This replacement for the compact filter consists of Hepa filter, carbon filter and pre-filter FAE1-110.
• The combination of the three-layer filter system achieves a certified filter efficiency of soldering fumes of up to 99.95 percent in accordance with the EN 1822 standard.
• The unit has an LED warning to know when it is time to replace the pre-filter or compact filter. It is also indicated via the device display.

Item no.	**WL46364**
Model	FAE1-100
Manufacturer	JBC
Manufacturer article no.	FAE1-100
GPSR manufacturer data	JBC Soldering SL
