

ESD PCB magazine set 300

The PCB holders can be loaded in vertical as well as horizontal position. The system is absolutely variable in width and can be mounted for all PCB sizes as required. For the various PCBs, 100, 180 and 300 mm high PCB holders are offered. With 32 guide grooves at 10 mm intervals, the PCB holders offer maximum packing density.

Safe guiding: The guide grooves are funnel-shaped at the beginning to ensure safe insertion of the PCBs. The glued-on positioning strips with yellow colour markings indicate the exact placement position and prevent PCBs from being inserted at an angle by hand.

- e.g. for PCBs with 233.4 mm width
- Material: polypropylene
- Colour: black
- Surface resistance: according to DIN EN 613450-5-1 $< 10^9$
- Groove width: 3,5 mm
- Groove depth: 2,5 mm
- Number: 32
- PCB spacing: 10 mm

- Quick and easy assembly
- Stable and torsion-resistant
- Slot lock
- Stackable
- Upright standing
- Transport containers - for transport, the PCB magazines can be inserted into standardised containers 600x400 or 400x300 mm.

item number	WL10820
model	Testset 300
manufacturer	CAB
manufacturer item number	8910065
scope of supply	2 web walls 300 4 profile rails length 269 mm 1 clamp 1 set of carrying handles
order unit	1 piece
content unit	1 piece
ESD safe	yes
Series PCB magazines	Series 300
Material PCB magazine	plastic
