ESD low shoe RUNNER 45, W10, S1P, neon blue, size 45

The RUNNER models from ATLAS® offer an extremely flexible fit thanks to a close-fitting monosock, whose upper material is made of very comfortable and elastic LIGHT KNIT. The 100% woven and seamless upper combines optimal support and performance with pleasantly soft comfort for a natural running feel. The LIGHT KNIT upper is characterised by its precise fit. In the forefoot area, an open-mesh structure specifically promotes breathability, so that a pleasant and light, airy running feeling is permanently guaranteed. On the outside, a close-meshed and robust knit is used to achieve high durability. The padding on the collar of the upper ensures a good fit and noticeably increases the wearing comfort.

With the innovative "RUN-3" outsole system, ATLAS® has developed a sole complex that supports the wearer in every situation and is extremely responsive. Whether sneakers or safety shoes, the properties are coordinated in such a way that the wearer can do his job without restrictions not only in production but also in the office. With the combination of nitrile and the well-known multifunctional polyurethane (MPU®), ATLAS® uses a 3-layer sole

structure for the first time in the new series. The nitrile outsole and midsole are slip-resistant, hard-wearing and abrasion-resistant. In turn, the midsole made of high-tech foam MPU® is dynamic, functional and above all responsible for soft-bedding cushioning.

The anti-puncture steel midsole is made of corrosion-resistant stainless steel and protects the foot against sharp objects such as nails. It has been optimally adapted to the last fit and foamed into the midsole material. This means that you are optimally protected even during long and hard indoor and outdoor use.

The anatomically shaped steel toe cap protects the foot in the toe area against impact of min. 200 joules and a compressive stress of min. 15 kN, according to EN ISO 20345:2012.

Particularly in everyday working life, with high physical stress, temperature-regulating properties are not only required, but expected. The aktiv-X functional lining stands for the highest quality, innovative technology and offers the wearer permanent, active moisture regulation. The aktiv-X functional lining regulates moisture and ensures that the shoes dry again quickly. It does not stain, is skin-friendly and abrasion-resistant.

Work healthier with the right cushioning. The new 3D cushioning system from ATLAS® enables noticeably gentle and fatigue-free walking. The basis for this outstanding walking comfort is formed by three basic components: Pressure relief. Cushioning. Dynamics. This is ensured by the perfect interaction of a pressure-relieving insole and the light and responsive MPU sole technology.

The ATLAS® clima-stream® concept maximises breathability, balances moisture inside the shoe and optimally regulates the temperature of the environment. The use of high-quality, particularly breathable upper material, the thermoregulating inner lining and the Klima Komfort® insole ensures a unique wearing sensation.

geeignet für die Einlagenversorgung-DGUV 112-191

ATLAS® offers you a wide range of different orthopaedic insoles. The articles marked here are suitable for orthopaedic insoles according to DGUV regulation 112-191. The marking on the shoe is decisive for this.

Item no.	**WL69199**
Model	RUNNER 45
Model line	RUNNER 45
Manufacturer	ATLAS
Manufacturer article no.	85000-45
GPSR manufacturer data	ATLAS-Schuhfabrik GmbH & Co.KG

	Frische Luft 159 DE-44319 Dortmund www.atlasschuhe.de
Length with packaging	34 cm
Width with packaging	34 cm
Height with packaging	12 cm
Sales unit	1 pair
Content unit	1 pair
Manufacturer colour information	neon blue
Colour	blue
Protective cap	yes
Type of shoes	low shoe
Safety class	S1P
Shoe sole	RUN-3 sole system
Slip resistance	SRC
Shoe width	W10 (standard width)
Penetration resistance	Steel midsole made of corrosion-resistant stainless steel
Features (shoes)	• LIGHT KNIT upper material • RUN-3 sole system • active-X functional lining • 3D cushioning system • clima-stream concept • suitable for insoles-DGUV 112-191
Material (shoes)	special material
Shoe size EU	45
ESD compliant	yes
Risk category (PPE regulation)	Category 2
