Combination ratchet wrench set, imperial, 8-piece

High-quality ring ratchet open-end wrench set from Wera: everything a wrench needs to be able to do. And much more. Faster, better, more beautiful. A real joker. The new generation of open-end ratchet wrenches. 8-piece set with imperial wrenches in a robust case. For hexagon screw heads and nuts. With holding function thanks to metal plate in the jaw, which reduces the risk of losing nuts and bolts. The replaceable metal plate in the jaw secures screws and nuts with extra hard teeth and reduces the risk of slipping. The integrated end stop can prevent the screw head from slipping downwards and enables high torques to be applied. The double hexagon geometry ensures a positive connection with the screw or nut and thus reduces the risk of slipping. A reverse swivel angle of just 30° on the jaw side avoids time-consuming turning of the wrench when screwing. Ratchet mechanism on the ring side with exceptionally high fine toothing of 80 teeth for flexibility even in tight installation spaces. The special forging geometry ensures high torque transmission and high bending stiffness. Manufactured from high-performance chrome-molybdenum steel with nickel-chrome coating for high corrosion protection. With Take it easy tool finder: color coding by size.

- With practical holding function thanks to metal plate in the jaw
- No slipping due to end stop
- Double hexagon geometry reduces the risk of slipping
- Swing-back angle of only 30°
- With Take it easy tool finder: color coding according to size

Item no.	**WL88757**
Model	6000 Joker 8 Imperial Set 1
Manufacturer	WERA
Manufacturer article no.	05020012001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzerter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	310 mm
Width	95 mm
Height	85 mm
Length with packaging	310 mm
Width with packaging	95 mm
Height with packaging	85 mm
Sales unit	1 piece
Content unit	1 piece
VDE	no
ESD compliant	no
Number of parts in the tool set	8-piece
