Multi-color offset wrench, metric, BlackLaser, 4 x 137 mm

High-quality Wera offset wrench with color-coded, comfortable hose sheathing. This means the tool is quickly to hand and the ergonomic and comfortable handle is easy on the hands, even at low temperatures. The Hex Plus profile offers larger contact surfaces in the screw head. This reduces the notch effect to a minimum and virtually eliminates damage to the screw head. The ball on the long shank allows safe working even in difficult installation positions. The BlackLaser surface treatment ensures excellent surface protection, including against corrosion, and a long service life. Lasered and therefore abrasion-resistant size marking on the offset wrench for quick access.

- Hex key for hexagon socket screws
- Hex-Plus makes hexagon socket screws last longer
- Color-coded, easy-grip hose sheathing, even at low temperatures
- With hexagonal ball head on the long shank
- Abrasion-resistant handle marking

Item no.	**WL88957**
Model	950 SPKL
Manufacturer	WERA
Manufacturer article no.	05022608001
GPSR manufacturer data	WERA Werkzeuge GmbH Korzerter Strasse 21-25 DE-42349 Wuppertal-Cronenberg www.wera.de
Length	142 mm
Width	30 mm
Height	6 mm
Length with packaging	160 mm
Width with packaging	82 mm

Height with packaging	24 mm
Sales unit	1 piece
