Hygostar Rapid-On nitrile gloves, blue, powder-free, S/7

Have you ever tried to put on disposable gloves with wet or sweaty hands? An almost hopeless undertaking - the gloves tear or are difficult to put on. This costs valuable time and causes unnecessary material loss. With the new Rapid-On nitrile gloves from Franz Mensch, this problem is a thing of the past.
Thanks to an innovative multi-layer coating, the gloves glide effortlessly over the hands, even when wet. Comparative tests prove this: They can be put on up to 50 % faster than conventional nitrile gloves. Rapid-On gloves are also particularly tear-resistant.
Rapid-On nitrile gloves combine maximum comfort with reliable protection. They are CAT3-certified, approved as a medical device, food-safe, powder-free and ambidextrous. The lightweight nitrile material is resistant to oil, grease, chemicals and solvents - ideal for professional use in medicine, the food industry or laboratories.
Experience a new dimension of efficiency, safety and comfort with Rapid-On nitrile gloves - for a smooth working day without compromise.
• Twice as fast to put on - compared to conventional nitrile gloves
