

## Dispensing needle 1", straight, gauge 20, pink, pointed shape straight

---

The pink, 1", straight, gauge 20, ID: 0.61 mm dispensing needle from Nordson EFD is perfect for applications that require a slightly larger flow rate. This Optimum® general purpose dispensing needle is also made of burr-free, polished and passivated stainless steel, providing high precision and durability. The inner diameter of 0.61 mm and the length of 1" make it ideal for various assembly processes. Thanks to its high-quality workmanship, the pink dispensing needle ensures drip-free and precise material application. The polypropylene receptacle and Luer lock thread guarantee a secure connection to the cartridge.

- ensure precise and consistent material application
- no leaks and drip-free application
- Stainless steel
- Dispensing needle for cartridge, straight
- Capillary L = 1"

- D inner = GA 20 (0.58-0.62 mm), pink
