

O-ring for adapter, ethylene, 30/55 cm³

The O-ring for adapters from NORDSON EFD made of high-quality ethylene material is specially designed for dosing cartridges with a volume of 30 cm³ or 55 cm³. It ensures a reliable seal between the adapter and cartridge, prevents material loss and guarantees an even pressure build-up when dispensing liquids, adhesives or soldering agents.

Thanks to its precise manufacturing, the O-ring fits perfectly on the corresponding adapter, is durable, chemically resistant and easy to replace. This makes it an indispensable accessory for precise and safe work in the laboratory, production or assembly.

Item no.	WL11746
Model	7018544
Manufacturer	NORDSON EFD
Manufacturer article no.	7018544
GPSR manufacturer data	Nordson Deutschland GmbH Kapellenstraße 12 DE-85622 Feldkirchen www.nordson.com

Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Size (dosing cartridge)	30 cm ³
