

ANALOG 60, Soldering station 60 W

- Soldering station ERSA Analog 60
- The basic soldering station with industry-proven technology
- The ERSA ANALOG 60 electronically temperature-controlled soldering station is the basic model of the ERSA soldering station series.
- High heating output of 190 watts ensures fast heating up and reheating.
- In ERSA RESISTRONIC temperature control technology, the ceramic PTC heating element acts as the temperature sensor.
- The adjustable control enables an exact adjustment of the ERSADUR permanent soldering tips heated from the inside with anti-twist protection.
- The soldering tip is high-impedance connected to the potential equalisation socket at the front.
- The multifunctional storage stand also serves as a tip holder.
- Included in delivery is the electronic station with mains cable, Basic tool 60 soldering iron with a chisel-shaped ERSADUR permanent soldering tip and storage stand.

item number

WL12271

Products for the electronic industry

model	ANALOG 60
manufacturer	ERSA
manufacturer item number	0ANA60
length with packaging	330 mm
width with packaging	220 mm
height with packaging	110 mm
order unit	1 piece
content unit	1 piece
RoHS conform	yes
power	60 W
nominal power	60 W
voltage	230 V
supply voltage	230 V
secondary voltage	24 V
warm-up period	60 s
temperature range °C	150 – 450 °C
suitable tips	832, 842
design soldering tip	continuous soldering tip
tip shape	chisel-shaped
station type	soldering station
digital display	no
compensational heaters	067100J
suitable handle	0670CDJ
ESD safe	no
