

ANALOG 60A, Soldering station 60 W, antistatic

- Soldering station ERSA ANALOG 60 A
- The industrial soldering station with the ergonomic soldering iron
- The MIL-SPEC/ESA standard antistatic, electronically temperature-controlled ERSA ANALOG 60 A soldering station naturally has all the benefits of the proven ERSA ANALOG 60
- High heating output of 190 watts ensures fast heat-up and reheating
- With ERSA RESISTRONIC temperature control technology, the ceramic PTC heating element takes over the function of the temperature sensor.
- The adjustable control enables precise adjustment of the ERSADUR permanent soldering tips with anti-twist protection, heated from the inside.
- The soldering tip is high-impedance connected to the potential equalisation socket on the front side.
- The multifunctional storage stand with gift sponge container also serves as tip holder.
- The station consists of an electronic station (0ANA603A) with mains cable (3K120KR053075), an Ergo tool soldering iron (0680CDJ) with soldering tip (0832CD) and a storage stand (0A42).

item number	WL12272
model	ANALOG 60A
manufacturer	ERSA
manufacturer item number	0ANA60A
length with packaging	330 mm
width with packaging	220 mm
height with packaging	110 mm
order unit	1 piece
content unit	1 piece
RoHS conform	yes
power	60 W
nominal power	60 W
voltage	230 V
supply voltage	230 V
secondary voltage	24 V
warm-up period	60 s
temperature range °C	150 – 450 °C
suitable tips	832, 842
design soldering tip	continuous soldering tip
tip shape	chisel-shaped
station type	soldering station
digital display	no
compensational heaters	068100J
suitable handle	0680CDJ
ESD safe	yes
