

Ring cable stripping tool, insulation thickness 5 mm, orange

Precision stripping for a variety of non-round shielded cables and other outer sheaths, including extruded PTFE insulation.

- The spring-loaded head holds the cable with exactly the same tension, so that no further adjustment is necessary.
- The clamping jaw with V-notch automatically positions and holds the cable, which increases the cutting accuracy.
- The fixed blades are adapted to the insulation in their dimensions and prevent inaccurate cuts. The construction of 17-4 stainless steel ensures a long life.
- Guide rollers ensure correct head alignment and a clean, square cut.
- Not recommended for cables with winding layers
- Insulation thickness 5 mm
- without front knife

item number	WL12986
model	45-401
manufacturer	IDEAL
manufacturer item number	45-401
length	114 mm

width	51 mm
height	38 mm
order unit	1 piece
content unit	1 piece
VDE	no
ESD safe	no
tool length	114 mm
type of pliers	hand stripper
