

FE adapter kit for TB3220 / PULSMATIC, CLASSIC series

The FE adapter kit for TB3220 / PULSMATIC of the CLASSIC series from JBC offers an efficient solution for solder fume extraction directly at the soldering iron. This kit is specifically designed to make the working environment cleaner and safer by effectively extracting harmful fumes and particles generated during soldering. Easy integration into existing CLASSIC series systems ensures seamless adaptation and improves air quality in the workplace. Ideal for professional users who value health and safety without compromising on soldering performance. Available at Weidinger.eu.
