

Vacuum extractor with protective cup, PLCC 52, 20 x 20 mm

The vacuum puller with protective cup, PLCC 52, 20 x 20 mm, is the ideal addition for hot air repair stations. This protective device enables precise work by concentrating the heat on the desired area and protecting adjacent components at the same time. The integrated vacuum puller ensures efficient handling and facilitates the removal of components. Perfect for professional applications, this accessory offers a reliable solution for demanding repair work. Discover the benefits of this product at Weidinger.eu.

- Protective device with integrated vacuum puller
- for hot-air repair stations
- Protective cup concentrates heat to the desired area and protects adjacent components

Item no.	WL13124
Model	0932052 / E2052
Manufacturer	JBC

Manufacturer article no.	E2052
GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Length with packaging	243 mm
Width with packaging	75 mm
Height with packaging	115 mm
Sales unit	1 piece
Content unit	1 piece
Length (protective cup)	20 mm
Width (protective cup)	20 mm
Shape	square
SMT design	PLCC 52
Dimensions	20 x 20 mm
ESD compliant	no
