

Vacuum extractor with protective cup, PLCC 68, 27 x 27 mm

The vacuum puller with protective cup, PLCC 68, 27 x 27 mm, is the ideal addition to hot air repair stations. This protective device enables precise work by concentrating the heat on the desired area and protecting adjacent components at the same time. The integrated vacuum puller facilitates the safe removal of components, increasing the efficiency and accuracy of repair work. Perfectly suited for professional applications, this tool offers a reliable solution for demanding electronics repairs.
