

Protector, square, 12.5 x 12.5 mm

Discover the square protective cup from JBC, specially developed for use with hot air repair stations. Measuring 12.5 x 12.5 mm, this protective cup offers optimum protection for adjacent components by concentrating the heat precisely on the desired area. To ensure efficient and clean removal of components, the protective cup should be the right size for the component to be desoldered. It can also be used with a tripod to make handling easier. Ideal for precise and safe repair work.
