

Protector, rectangular, 11 x 16 mm

The rectangular protective cup measuring 11 x 16 mm is an indispensable accessory for hot air repair stations. It effectively protects adjacent components and concentrates the heat precisely on the desired area. For optimum results, the protective cup should be the right size for the component to be desoldered. It can also be combined with a tripod to remove the component cleanly and efficiently. Ideal for precise and safe repair work.
