

Soldering iron 50 W, T245-A

The T245 General Purpose Handle is perfect for SMDs and work with high power requirements (e.g. soldering ground planes). Its ergonomics and the short distance between tip and handle also ensure better results and more comfort.

The T245 is supplied with a thermally insulating foam handle and a 1.5 m cable. It works with the C245 series cartridges, which are easily interchangeable with the JBC cartridge changer.

PRODUCT COMPOSITION:

1 T245 all-purpose handle
(cartridge not included)

- without soldering tip (3-pole)
- Suitable for SMDs and work with high power requirements (soldering ground planes)
- Supplied with 1.5 m cable
- Works with the C245 series cartridges
- ESD compliant

item number

WL13283

model

T245-A

Products for the electronic industry

manufacturer	JBC
manufacturer item number	T245-A
length with packaging	235 mm
width with packaging	40 mm
height with packaging	40 mm
order unit	1 piece
content unit	1 piece
nominal power	50 W
voltage	24 V
handle type	soldering iron
suitable stand	AD-SD
suitable tips	C245
length cable	1.5 m
suitable control unit	DI, DDE, DME
ESD safe	yes
