

ESD extraction column DN50, width 200 mm, black

- Suction gap for concentrated sources of contamination
- For smaller, concentrated pollutant sources.
- Is positioned at the table, behind the source, so that the air stream can draw the pollutants away.
- Inner manifold for optimum extraction efficiency.
- Often used for soldering.

item number	WL15449
model	1-5020-6
manufacturer	ALSIDENT
manufacturer item number	1-5020-6
width	200 mm

order unit	1 piece
content unit	1 piece
colour	black
Colour	black
material	Pipe socket and suction gap made of chromated TCP aluminium to ensure permanent conductivity or shock-resistant conductive polypropylene
diameter of tube	50 mm
ESD safe	yes
