

Extraction tip DN50, length 210 mm, aluminium

- Suction tip for concentrated sources of contamination
- High efficiency, as the suction tip can be positioned directly at the source without hindering the work process
- Elaborately processed cantilevers of the suction tip to increase the efficiency of collection

item number	WL15450
model	1-5021
manufacturer	ALSIDENT
manufacturer item number	1-5021
length	210 mm
order unit	1 piece

Products for the electronic industry

content unit	1 piece
material	Anodised aluminium tube - layer thickness 10μ
diameter of tube	50 mm
device series	WSA-10LR, WSA-20LR, WSA-5LR
ESD safe	no
