

ESD end cutting pliers, RX series, fine pitch, 0.1-0.8 mm

Made of high-performance ball bearing steel, burnished. Cutting and jaws computer-ground, thus highest precision and constant quality. Induction hardening of the cutting edges to 63-65 HRC. Handles of 2 components, with opening spring.

- cutting capacity: 0.1-0.8 mm
- End cutters, e.g. for work on components with multicore cables.

item number	WL16017
model	RX 8149
manufacturer	LINDSTRÖM
manufacturer item number	RX 8149
length	155 mm
width	155 mm
height	65 mm
order unit	1 piece
content unit	1 piece
product series	RX Series
VDE	no
head width	10 mm
Cut form	small bevel

ESD safe	yes
tool length	139 mm
type of side cutter	end cutter
length of jaws	14 mm
