Cleaning sponge for Weller soldering tips

The Weller cleaning sponge for soldering tips is specially developed for effective cleaning and care of your soldering tools. Measuring 70 x 55 x 16 mm, it fits all current trays with the exception of the AK51 model. The two-layer, perforated sponge ensures thorough removal of residues and extends the service life of your soldering tips. An indispensable accessory for precise and clean work.

- suitable for all current trays, except AK51
- 70 x 55 x 16 mm, two-ply, perforated
