

Filter for desoldering stations WDD80/81/161

The filter for Weller WDD80/81/161 desoldering stations is an essential accessory for the efficient operation of your soldering and desoldering equipment. It ensures reliable filtration of pollutants produced during desoldering and thus contributes to a clean and safe working environment. The filter is specially designed for the models mentioned and ensures optimum performance and a long service life for your desoldering station. Simply replacing the filter makes it easier to maintain your equipment, which contributes to consistently high functionality.

Item no.	WL16723
Model	T0058748852
Manufacturer	WELLER
Manufacturer article no.	T0058748852N
GPSR manufacturer data	WELLER Tools GmbH Carl-Benz-Strasse 2 DE-74354 Besigheim www.weller.eu
Sales unit	1 piece
Content unit	1 piece
ESD compliant	no
