Soldering tip for MAGNASTAT W101

The CT6 CX7 soldering tip from Weller's CT6 series is designed for the MAGNASTAT W101 soldering iron and works at a fixed temperature of 370 °C.

The chisel-shaped tip with a width of 3.2 mm has a 45° angle, making it easier to work on hard-to-reach solder joints. The angled shape enables precise application of solder and clean solder joints.

The robust design makes the soldering tip suitable for reliable soldering work in the electronics sector.
