

IC assembly tool DIP-IC-36/40

The Weller IC placement tool DIP-IC-36/40 offers a precise solution for the placement of DIP ICs with 36 to 40 pins. With a maximum clamping area of 310 x 320 mm, it enables efficient and safe handling of components. The tool is specially designed for the requirements of modern electronics production and ensures reliable positioning and fixing of the ICs. The robust design and well thought-out ergonomics support smooth integration into existing work processes.

Item no.	WL16797
Model	DIPIC3640
Manufacturer	WELLER
Manufacturer article no.	T0054700599N
GPSR manufacturer data	WELLER Tools GmbH Carl-Benz-Strasse 2
