Weller soldering tip LT-CS, round shape, D: 3.2 mm

The LT CS soldering tip from WELLER is a high-quality round tip from the tried-and-tested LT series and is ideal for universal soldering work in the SMT and THT area. With a tip width of 3.2 mm and its precise round shape, it enables clean and reliable solder connections for medium component sizes (S-M).

Made of iron-coated copper, the soldering tip impresses with its particularly long service life and high resistance in daily use. The integrated Silver Line heating element technology ensures efficient heat transfer and consistently high performance.

Thanks to the extremely short heat-up time of just 10 seconds (from 50 °C to 350 °C), the tip is quickly ready for use and supports an efficient workflow. It is compatible with a wide range of WELLER soldering irons, including WXP 80, WP 80, WSP 80, FE 75, LR 21 and TCPS. With the appropriate adapter, it can also be flexibly extended.

Ideal for users who need a robust, versatile and durable soldering tip for precise electronic work.
- LT tips for WXP 80/ WP 80/ WSP 80 soldering irons
- For universal SMT and THT tasks

- For good performance
- A large, cost-effective range of tips is available for very good results.
- Solid iron-coated copper for maximum durability and longevity.
- Also suitable for LR 21 with adapter T0058720781 (WL20284)
- Heating time: 10 sec from 50°C to 350°C
- Components Size: S-M

Item no.	**WL16909**
Model	LT CS
Manufacturer	WELLER
Manufacturer article no.	T0054441199
GPSR manufacturer data	WELLER Tools GmbH Carl-Benz-Strasse 2 DE-74354 Besigheim www.weller-tools.com
Sales unit	1 piece
Content unit	1 piece
Product series	LT series
Tip series	LT
Heating element technology	Silver Line
Tip length	13 mm
Tip width	3.2 mm
Soldering tip diameter	4.6 mm
Tip shape	round
Tip alignment	straight
Matching handpiece	FE 75, LR 21, TCPS, WP 80, WSP 80, WXP 80
ESD compliant	no
