PYROPEN JUNIOR soldering iron WSTA2, butane gas operated

The Weller Pyropen Junior is a manual ignited lightweight Butane gas operated soldering iron with solder, hot blow and blow torch functions. Ready to use within 30 seconds it helps to complete soldering tasks anywhere, without the need for a mains supply or an obstructing cable. Supplied with aluminium protective cap with pocket clip and safety feature to prevent the cap being fitted when the iron is on. Temperature variable between 250°C to 450°C when used as a soldering iron, up to 430°C when used as a hot air blower.

Solder on the go, even outdoors - Complete your soldering task anywhere, without the need for a mains supply or an obstructing cable in the way. Fast heat up time - Ready to use in 30 seconds due to its fast heat up time. Versatile functionality for numerous applications - additional hot blow function for shrinking hoses. Manual-ignition - can easily be ignited manually with lighter or match. Protective aluminium cap - Increased security with protective aluminium cap to prevent being fitted when iron is on. Temperature adjustable from 250° to 450°C - Variable adjustment of soldering temperature between

250° to 450°C when used as soldering iron, 430°C when used as hot air blower. Easy refill with Weller butane gas - No need for cords, batteries or cartridges, easy refill with Weller butane gas (Weller® Cat. no. WB1 or WB2) in just a few seconds for an almost uninterrupted workflow.

- Butane gas operated mini soldering iron
- Gas ignition by lighter
- pencil shape

Item no.	**WL17051**
Model	Pyropen Junior
Manufacturer	WELLER
Manufacturer article no.	T0051607599
GPSR manufacturer data	WELLER Tools GmbH Carl-Benz-Strasse 2 DE-74354 Besigheim www.weller-tools.com
Sales unit	1 piece
Content unit	1 piece
Handpiece (type)	gas soldering iron
Matching tips	71 x series
Matching control unit	Gas betrieben
ESD compliant	no
