

Solder wire dispenser SD 1000, ESD safe, up to 1kg load capacity

The Weller SD 1000 solder wire dispenser is the optimal addition to the soldering workstation. Thanks to the heavy base plate, it offers perfect stability. The SD 1000 has been designed so that various solder wire spools weighing up to 1 kg can be used. The solder wire guide is suitable for different wire diameters and enables quick feeding of the solder wire into the desired position. To use an additional solder wire spool, the optional mounting bracket ABW 2 can be easily mounted. This keeps the work area free and you have an organized soldering workstation with different wire diameters at hand. Please note: Solder wire is not included in the scope of delivery.

- Increased work efficiency due to fast solder wire feed (solder wire unwinds smoothly)
- Exceptional stability thanks to high-quality metal base plate
- Possibility of potential equalization
- ESD-safe
- Optional attachment kit can be fitted (ABW 2) – for flexibility with choice of solder wire

and saving space by stacking.

- Suitable for solder wire reels up to 1 kg
- Length 70 mm, internal diameter > 12 mm
- Length 84 mm, internal diameter < 12 mm
- Length 95 mm, internal diameter > 15 mm
- Solder wire not included in the delivery

item number	WL17060
model	SD1000
manufacturer	WELLER
manufacturer item number	T0051301799N
width	145 mm
depth	100 mm
length with packaging	145 mm
width with packaging	102 mm
height with packaging	100 mm
order unit	1 piece
content unit	1 piece
Thickness	102 mm
ESD safe	yes
