

ESD web wall PCB magazine 100, with reinforcement

The PCB holders can be loaded in vertical as well as horizontal position. The system is absolutely variable in width and can be mounted for all PCB sizes as required. For the various PCBs, 100, 180 and 300 mm high PCB holders are offered. With 32 guide grooves at 10 mm intervals, the PCB holders offer maximum packing density.

Safe guiding: The guide grooves are funnel-shaped at the beginning to ensure safe insertion of the PCBs. The glued-on positioning strips with yellow colour markings indicate the exact placement position and prevent PCBs from being inserted at an angle by hand.

- ESD bar wall for PCB magazines series 100
- H x W x D = 100 / 83 x 359 x 20 mm
- weight: 0,4 kg
- with reinforcement

Item no.	WL18070
Model	8910102
Manufacturer	CAB
Manufacturer article no.	8910102
GPSR manufacturer data	CAB Produkttechnik Wilhelm-Schickard-Straße 14 DE-76131 Karlsruhe www.cabgmbh.com
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
ESD compliant	yes
