

Soldering tip MS series, conical, D: 0.5 mm

The MS-4130 soldering tip from PLATO's MS series is a conical tip with a diameter of 0.5 mm. It was developed for precise soldering work and is ideal for fine electronic components where accuracy is crucial.

This tip corresponds to the Weller LTS soldering tip and is compatible with the Weller WSL, WD, WS and WSD soldering stations as well as the WSP and MPR soldering irons. It is also compatible with the Weller LT tip series, allowing flexible replacement in existing soldering systems.

The straight conical shape of the tip enables precise heat transfer and clean solder joints, even with sensitive components. Whether in production, repair or in the laboratory - the MS-4130 always guarantees reliable results.

- corresponds to Weller soldering tip LTS
- suitable for Weller Station WSL, WD, WS and WSD
- suitable for Weller soldering irons WSP and MPR
- compatible to Weller LT top series

Item no.	WL18106
Model	MS-4130
Manufacturer	PLATO
Manufacturer article no.	MS-4130
GPSR manufacturer data	TECHSPRAY ITW Saffierlaan 5 NL-2132 Hoofddorp www.techsprayeu.com
Sales unit	1 piece
Content unit	1 piece

Products for the electronic industry

Incl. battery	no
Product series	MS series
Tip series	MS-serie
Soldering tip diameter	0.5 mm
Tip shape	conical
Tip alignment	straight
Matching handpiece	MPR, WSP
