

DX 111 suction nozzle outside 2.5 mm, inside 0.7 mm

Eccentric mounting for quick nozzle change

Weller suction nozzles are used to remove solder from all types of solder joints. They are heated and melt the solder. When the vacuum on the desoldering iron is switched on, the liquid solder is absorbed by the tube integrated into the nozzle and fed into the tin collecting container.

item number	WL18207
model	DX-111
manufacturer	WELLER
manufacturer item number	T0051314199
order unit	1 piece
content unit	1 piece
product series	DX suction nozzles
inside diameter	0.7 mm
outer diameter	2.5 mm
tip length	23 mm
tip shape	desoldering nozzle
tip alignment	straight
suitable handle	DSX 80, DXV 80
