

## SMD desoldering head CSF-D

The CSF-D SMD desoldering head from Weller is a high-quality tool for precise and efficient desoldering of SMD components. With its robust design and optimum heat transfer, it enables reliable and gentle removal of components from PCBs. The CSF-D is compatible with the {{D}} series and offers easy handling and a long service life. Thanks to its precise tip geometry, it is particularly suitable for delicate work in electronics production.
