

FE adapter kit F1204, solder fume extraction set for AP130 / AP250

The FE adapter kit F1204 from JBC is the ideal solution for effective solder fume extraction directly at the soldering iron. This kit is specially designed for the AP130 and AP250 models and ensures a clean and safe working environment. It includes a hose and clips for quick and easy installation. A separate suction pump and filter are required for operation to ensure optimum functionality. The kit provides an efficient way to capture and remove harmful fumes directly at source, increasing health and safety in the workplace. Discover the FE adapter kit F1204 on Weidinger.eu and optimize your soldering processes with this sophisticated extraction solution.

- for solder fume extraction at the soldering iron
- complete with hose and clips
- suitable for AP130 and AP250
- a suction pump and a filter are required

Item no.	WL19693
Model	0451204 / F1204
Manufacturer	JBC
Manufacturer article no.	F1204
GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Length with packaging	155 mm
Width with packaging	85 mm
Height with packaging	55 mm
Sales unit	1 set
Content unit	1 set
Incl. battery	no
Soldering tip diameter	2.3 mm
ESD compliant	no
