

## Chisel shaped soldering tip, 2.2 x 1 mm, C245907

The JBC C245907 soldering tip chisel attachment (2.2×1mm) impresses with its precision and efficiency in every soldering-specific application. This chisel-shaped soldering tip is specially developed for the T245 handles and shines with outstanding durability and reliability. Thanks to JBC Long-Life technology, it offers a fast heat-up time, excellent heat transfer and up to five times longer life compared to conventional tips. Whether for SMD components, ground plane soldering or general soldering work, the C245907 chisel-shaped tip delivers consistently clean and reproducible results. The 2.2×1mm dimensions ensure an ideal balance of sufficient heat output and fine handling - perfect for detailed work. The integrated sleep & hibernation functions reduce oxidation and support tip care, which reduces maintenance and increases the service life.

item number	WL19821
model	C245-907
manufacturer	JBC

manufacturer item number	C245907
GPSR manufacturer information	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
length with packaging	110 mm
width with packaging	12 mm
height with packaging	12 mm
order unit	1 piece
content unit	1 piece
product series	C245
Tip series	C245
with integrated heating	yes
tip dimensions	2,2 x 1 mm
tip length	10 mm
total length soldering tip	100 mm
tip shape	chisel-shaped
tip alignment	straight
suitable soldering iron	T245
suitable handpiece	T245
suitable handle	T245
ESD safe	no
