

Independent 130 Gas Soldering Basic Set, 0G13400041

- ERSA Independent 130 Gas Soldering Set "Basic"
- ERSA's "big" gas solderer, the Independent 130, is used wherever demanding soldering tasks can be solved without a power supply.
- Due to its large power spectrum of infinitely adjustable 25 - 130 Watt (compare with electric soldering iron) and its extensive range of soldering tips, it can be used for a wide variety of applications in the service, installation, maintenance and repair sector.
- The piezo ignition integrated in the device and the operation with commercially available, purified butane lighter gas guarantee easy handling and high reliability.
- The operating time with one gas filling is approx. 120 min., the maximum soldering tip temperature is approx. 580°C.
- Like its little brother, the Independent 75, the Independent 130 is also available in the two set variants as a basic set and a professional set.
- The Independent 130 "Basic Set" contains a gas soldering iron with mounted soldering tip, another soldering tip and a sponge container with cleaning sponge.
- Operating time with one gas filling: 120 min

item number

WL20001

Products for the electronic industry

model	G13400041
manufacturer	ERSA
manufacturer item number	OG13400041
length with packaging	320 mm
width with packaging	91 mm
height with packaging	48 mm
order unit	1 set
content unit	1 set
RoHS conform	yes
nominal power	130 W
warm-up period	50 s
handle type	gas soldering iron
temperature max.	580 °C
suitable tips	G132
ignition	piezo
design soldering tip	nickel-plated
soldering tip diameter	2.4 mm
suitable handle	OG130KN
