

ESD work coat CONDUCTEX, long sleeves, men, white, M

The ESD work coat Pro Line in dark blue from SafeGuard is a top product that sets the highest standards in terms of quality and functionality. The 3/4 garment length ensures optimum protection, while the conductive yarn in a 4x4 mm grid guarantees a typical point-to-point resistance of $R_{p-p} = 10^5 - 10^7$ Ohm. These technical details make the ESD gown an indispensable companion for anyone working in electronics production.

The unisex version of the ESD gown guarantees a perfect fit for both men and women. Practical details such as the 2 side pockets, the press studs on the sleeves and the row of buttons with fabric cover are evidence of a well thought-out design. The lapel collar and concealed button placket also give the ESD coat a professional look.

Made from 63% PES, 33% cotton and 4% carbonized yarn, the work coat is not only extremely comfortable to wear, but also meets all ESD safety requirements. With the ESD logo on the breast pocket and ESD certification, this ESD coat is the perfect choice for anyone who values the highest quality and safety.

Get the ESD work coat Pro Line from SafeGuard now and set an example for professional workwear in the electronics industry. Protect yourself and your work with this first-class product - convincing and safe in every respect.

What's new is that you can now also have the ESD work coat printed individually. Find out more about the personalization options on our printing page:
