

Silicone membrane for AR5500 / AR5800 / AM6850

The silicone membrane for the AR5500, AR5800 and AM6850 models from JBC is an indispensable accessory for precise soldering work. This high-quality membrane ensures optimum sealing and protects sensitive components from external influences. It is specially designed for use with the above models and offers a perfect fit and a long service life. The silicone membrane contributes to the efficiency and reliability of your soldering station by ensuring even heat distribution. Ideal for professional users who value quality and durability. Available at Weidinger.eu.
