

ESD spiral cable, 1 MOhm, light blue, 2.4 m, 10 mm push-button, banana plug, crocodile clip

The ESD spiral cable from Safeguard is an important component in personal grounding in the ESD zone (EPA) to protect electronic equipment and components from electrostatic discharge. The leakage resistance is 1 Mohm. The length of the cable of 2.4 meters allows flexible working without restricting the freedom of movement. The ESD spiral cable in the color light blue has a 10mm push button as well as a banana plug including an alligator clip. The color scheme allows the cable to be easily recognized at any time and in different lighting conditions.
