

Extraction tip DN50, length 310 mm, red

- Suction tip for concentrated sources of contamination
- High efficiency, as the suction tip can be positioned directly at the source without hindering the work process
- cantilevers of the suction tip to increase the efficiency of collection

item number	WL20649
model	1-5032-4
manufacturer	ALSIDENT
manufacturer item number	1-5032-4
length	310 mm
order unit	1 piece
content unit	1 piece

colour	red
Colour	red
material	Pipe made of anodised aluminium - layer thickness 10μ, muzzle made of shock-resistant, chemically resistant polypropylene
diameter of tube	50 mm
ESD safe	no
