

ESD flat hood square DN50, 330 x 240 mm, black

- Flat hood recommended for detection of light smoke or gases
- Increased efficiency in detection when hood is placed vertically or at an angle
- High efficiency as the hood can be positioned directly at the source without obstructing the working process

item number	WL20655
model	1-503324-6
manufacturer	ALSIDENT
manufacturer item number	1-503324-6
length	240 mm
width	330 mm
order unit	1 piece
content unit	1 piece
colour	black
Colour	black
material	Hood and flange made of conductive polypropylene (PP), pipe socket made of chromated TCP aluminum to ensure permanent conductivity
ESD safe	yes
