

Desoldering tip base 11.9 x 14.5 mm, C245248

The C245-248 SMD desoldering tip from the C245 series is specially designed for use on PLCC sockets 32 (14.5 x 11.9 mm). With its special straight shape, it enables precise and clean desoldering on smaller components. The tip is equipped with integrated heating and is suitable for the T245 handpiece.

Thanks to its compact length of 120 mm (total length) and a weight of just 10 g, the desoldering tip is easy to handle. Supplied individually.

Ideal for professional soldering work in electronics workshops or for repair services.

Item no.	WL20752
Model	C245-248
Manufacturer	JBC
Manufacturer article no.	C245248
