ESD Ring Electrode, Model 880

- For surface and volume resistance measurement
- Conductive contact rubber (R < 5 Ohm) with silver particles
- Total resistance / electrode R < 30 Ohm
- D = 80 mm, weight = 550 g
- standard weight 2.5 kg, can be achieved by separate weight (e.g. electrode model 850)
- Ring electrode Model 880 corresponds to DIN EN 61340-2-3

item number	WL20885
model	7220.880.SET
manufacturer	WARMBIER
manufacturer item number	7220.880.SET
scope of supply	stainless steel plate Insulating plate

	Conductive carrying case works calibration certificate
order unit	1 set
content unit	1 set
diameter	80 mm
standards	DIN EN 61340-2-3
ESD safe	yes
