

WHP-3000 / 1200 Watt Infrared Preheating Plate, with Easy Fix PCB Holder

The WHP-3000 infrared preheating plate from Weller offers an output of 1200 watts and is specially designed for the efficient preheating of PCBs. Equipped with the Easy Fix PCB holder, it enables stable and precise positioning of the PCBs during the soldering process. This preheating plate is compatible with the WR 3000M and WXR 3 sets, making it a versatile addition for demanding soldering jobs. The robust design and reliable infrared technology ensure even heat distribution and thus support optimum soldering quality.

- Digital control electronics
- 6 Infrared high temperature radiators for fast and effective heating
- 2 Easy Fix PCB holder
- Heated surface 190 x 245 mm / 9.65 x 7.48 inch
- Digital display for target and actual temperature
- WX compatible
