

## Head and attachment magnifier laboCOMFORT, binocular, 2x, 5 dpt.

The laboCOMFORT head and attachment magnifier from Eschenbach leaves both hands free to work. It also guarantees a comfortable working distance even at high magnification.

- Plano-convex PXM® light lens for sharp, distortion-free imaging
- The glider can be simply folded up when not in use
- Various locking options for individual height adjustment of the magnifier screen
- The headband magnifier can also be used by spectacle wearers
- Dark grey, closed plastic shield against stray light with integrated lens holder
- The headband magnifier can only be used with binocular lens parts.
