

Motor drive for EBSOMAT-400

The model 400/4900/0000 motor from EBSO is specially designed as a drive unit for the EBSOMAT-400 and ensures reliable and smooth operation of the device. A suitable mains cable for 230 V is included in the scope of delivery to ensure uncomplicated commissioning.

The motor impresses with its stable performance and precise function, which supports a smooth workflow in the production or laboratory environment. As an originally matched spare part or accessory, it enables quick integration into the existing system and helps to minimize downtime.

Item no.	WL22275
Model	400/4900/0000
Manufacturer	EBSO

GPSR manufacturer data	EBSO GmbH Industriestraße 15 DE-76767 Hagenbach www.ebso.com
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Product series	EBSOMAT
