Soldering tip spoon shaped, D: 2.7 mm, C245931

The JBC C245931 spoon-shaped soldering tip (diameter 2.7mm) is part of the versatile C245 series and is specially designed for use with the JBC T245 soldering irons. This Mini Spoon Cartridge offers excellent heat transfer and scores with its remarkable longevity, which is up to five times longer than conventional tips thanks to the patented Long Life Tips technology. Ideally suited for general soldering purposes, the tip is equally impressive for precise SMD soldering and power-intensive applications such as soldering ground pads.
The well-designed Mini Spoon profile enables comfortable working even with fine PCBs, thanks to the 2.7 mm width and a working length of around 10 mm. The integrated heating function ensures immediate heating and rapid temperature recovery, minimizing downtime - especially in combination with the sleep and hibernation functions of the JBC system.
With dimensions of approximately 110×12×12mm and a weight of around 7g, it is optimally balanced for precise work without fatigue.
This soldering tip is compatible with the JBC T245 handpieces (e.g. general purpose, blue-grip, nitrogen version) and is ideal for professional users in electronics workshops, industry and service - wherever high-quality soldering tips with high heat output, precise shape and extreme durability are required.
Solder depot tip for Fine Pitch

Item no.	WL22526
Model	C245-931
Manufacturer	JBC
Manufacturer article no.	C245931
GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Length with packaging	110 mm
Width with packaging	12 mm
Height with packaging	12 mm
Sales unit	1 piece
Content unit	1 piece
Product series	C245
Tip series	C245
Incl. integrated heating	yes
Tip length	10 mm
Total length of the soldering tip	100 mm
Soldering tip diameter	2.7 mm
Tip applications	for Fine Pitch
Tip shape	hollow profile
Tip alignment	sloped
Matching handpiece	T245
ESD compliant	no
