

soldering station 75 W with FM-2026 nitrogen soldering iron

- Nitrogen soldering iron: the heated nitrogen exits the nozzle and completely rinses around the soldering tip.
- This prevents the soldering tip from coming into contact with oxygen and oxidizing the soldering tip and tin.

item number	WL22741
model	FX-951-N2
model line	FX
manufacturer	HAKKO
manufacturer item number	FX-951-N2
scope of supply	FX 951-N2 Soldering station FX 951 B 2972 Key card FM 2026-03 Nitrogen soldering iron FN 2026

Products for the electronic industry

	FH 200-02 Switch quiver B 3253 Connecting cable B 2765 Handle yellow A 1536 Cleaning sponge B 2300 Thermo insulating flaps optional accessories (not included): FX 780-1 Nitrogen Generator FX 791-01 Nitrogen Flowmeter
order unit	1 piece
content unit	1 piece
power	75 W
nominal power	75 W
voltage	230 V
secondary voltage	24 V
temperature range °C	200 – 450 °C
suitable tips	T17 lace series
station type	soldering station
temperature stability °C	±5 °C
ESD safe	yes
