

Rework heating plate

- Infinitely variable temperature controlled, compact and ergonomic infrared rework heating plate with integrated thermocouple including control station for preheating all SMD components, assemblies and substrates
- To support the hand soldering process especially in lead-free applications and to avoid temperature shocks during soldering.
- Also suitable for reflow soldering of single-sided boards, for reballing and drying pastes and adhesives
- Recommendation: to monitor the temperature of the modules, use the ERSA temperature measuring device in conjunction with the ERSA precision temperature probe.

item number	WL23349
model	IRHP200
manufacturer	ERSA

manufacturer item number	0IRHP200
length with packaging	430 mm
width with packaging	385 mm
height with packaging	280 mm
order unit	1 piece
content unit	1 piece
RoHS conform	yes
digital display	yes
